

Eco Leisure Supplies 

# Cleaner facilities

## WITH A GREENER SOLUTION

We all face the problem of how to maintain facility cleanliness from the first day of opening our facilities. The battle between having staff consistently clean, operating a failing no-shoe policy or having customers use single-use shoe covers that are terrible for the environment. It's about time you had an option that actually worked for your facilities and customers!

**We have the all-in-one solution to increase facility cleanliness while saving you money and reducing waste at the same time!**

8928 Olympic-sized swimming pools of waste are buried beneath our feet each year in the UK. Using products like single-use shoe covers only adds to this problem. We need to adopt a greener approach.

Eco Leisure Supplies 

**Leisure Loop**  
Recycling Scheme

# HOW DOES OUR **ALL-IN-ONE** SOLUTION WORK?

We provide reusable,  
recyclable flip flops

**WITH YOUR BRANDING.**

All branded flip flops can be recycled with the  
Leisure Loop Recycling Scheme. Every order  
receives a free recycling point.

**Eco Leisure Supplies** 

**Leisure Loop**  
Recycling Scheme

# How does it work?

- We design & provide recyclable branded flip flops on a display stand for your reception.
- Customers buy this great value footwear and you make a profit on each sale.
- Customers wear the footwear in your no outdoor shoe zones, increasing hygiene & cleanliness.
- Every customer now has a reuseable pair to bring on every visit to your centre.
- You get a free Leisure Loop recycle point with each order to not only recycle your flip flops, but to start recycling; goggles, pool floats, armbands, swim caps and more when they all reach the end of their life.
- We collect the Leisure Loop recycle box when it's full, replace it with a new one and recycle the pool waste to make new products for the industry here in the UK.

# CASE STUDY AT TADCASTER POOL

**Tadcaster Community Swimming Pool** introduced our **Leisure Loop** recycle scheme along with our recyclable branded footwear package. This allowed them to implement a successful no shoe policy in a new innovative way while reducing single-use plastic and recycling pool waste with the help of their customers.

- ✓ Removed blue overshoe covers saving 3-4 thousand entering landfills each month.
- ✓ The best hygiene and cleanliness the facility has experienced in 28 years of business.
- ✓ Customers purchase branded flip flops from reception generating a profit.
- ✓ Saved £3000 on their floor cleaning supplies bill in the past 9 months of use.
- ✓ Successfully implemented flip flops into their swimming lesson scheme and provided sizes to cover all kids on the lesson scheme plus the adults taking them.
- ✓ Fully recyclable using the leisure loop recycle scheme. Customers frequently recycle old pairs and upgrade for new branded pairs on their visit.

Starter pack
